## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 2-8, 14 and 15, drawn to a safety razor blade unit with a specific lubricating element and backstop configuration, classified in class 30, subclass 41.
  - II. Claims 9-13, drawn to a safety razor blade unit with an elastomeric strip, classified in class 30, subclass 34.2.
2. Claim 1 is considered to be a linking claim and will be examined upon election of one of the groups. If claim 1 as originally filed is determined to be patentable, rejoinder of claims 1-15 will be considered.
3. The inventions are distinct, each from the other because of the following reasons:
4. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the invention of Group I has separate utility such as without the elastomeric strip of Group II. Conversely, the invention of Group II has separate utility such as with a generically configured backstop and lubricating element. See MPEP § 806.05(d).
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and have

Art Unit: 3724

acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Clark F. Dexter whose telephone number is (703)308-1404. The examiner can be reached Monday through Friday during normal business hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan N. Shoap can be reached on (703)308-1082. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
